Professional Experience

NETIXSOL

Faisalabad, Pakistan

Software house, specializes in custom blockchain development, technology consulting, and delivering next-gen applications to global industries, with a proven track record of 80+ successful projects and a trusted international client.

MERN Stack Intern:

November 2024 - Present

- **Collaboration:** Collaborate with a team to design, develop, and deploy web applications using MERN stack technologies (MongoDB, Express, React, Node.js, Next.js).
- **Version Control:** Utilize Git and GitHub for source code management and collaborative development.
- **UI Design:** Utilize Material UI, Tailwind CSS, and Figma for building user-friendly and visually appealing interfaces.
- **Task Management:** Work with Jira for project tracking and efficient task management.
- **Efficient Debugging:** Debug and resolve issues, ensuring seamless integration with APIs and databases using modern techniques.
- **Hands-On Learning:** Enhance technical skills and problem-solving abilities through hands-on experience and collaboration with experienced developers.

UPWORK

Remote

Online workplace where companies hire, manage, and pay freelancers through a web-based platform.

Freelancer:

August 2023 – Present

- **Client Management:** Delivered services as an independent contractor for third-party clients, ensuring timely communication, understanding client needs, and delivering high-quality content tailored to their expectations.
- **AI Training:** Trained chatbots by reviewing and improving prompts and responses to ensure natural interaction, which led to more effective user engagement with the AI system.
- **Translation:** Translated Persian to English videos, ensuring accurate cultural and linguistic representation, enhancing the accessibility and comprehension of the content for English-speaking audiences.

Project Experience

WANDERLUST

Government College University, Faisalabad

Collaborated with two classmates to develop a website using the MERN stack for users to search for places and book hotels, flats, and restaurants.

Frontend Developer:

March 2024 – July 2024

- **Development:** Led the frontend development using HTML, CSS, Bootstrap, and JavaScript, ensuring a visually appealing and user-friendly interface.
- **Backend Contribution:** Contributed to the backend using Node.js, Express, and MongoDB, ensuring seamless data storage and retrieval.
- **Outcomes:** Delivered a responsive and intuitive interface for seamless bookings and successfully integrated backend functionalities to enhance user experience.
